Description:

Lease A New Car is a full-service auto leasing company based in New York that is dedicating to helping our customers find the right vehicles, at the right prices, for their current situation. We have helped hundreds of people from throughout the New York area find the vehicle they need, and help them get setup in their new lease right away. Unlike most other auto leasing agencies, we don't operate off of a traditional car lot. Instead, we are an online car lease company, which makes it possible for you to browse through all the different cars, trucks, mini-vans, and SUVs right from the comfort of your own home.

Once you find a car you are interested in, we can set up a time to have you take it for a test drive, and if you decide you want to complete the lease, we'll even have it delivered right to your home or business. This really is the easiest and most affordable way to lease a new car, and we are happy to help you every step of the way.

Another thing that helps set us apart from the competition is the fact that we can lease you any make or model vehicle you can imagine. While most leasing agencies only have vehicles made by two or three manufacturers, we have access to them all. Whether you want a luxury car like a BMW, Lexus, Cadillac, or Mercedes, or you are looking for something more economical like a Ford, Dodge, Kia, or Chevy, we have them all for you.

We are able to do this because when you come to us with a specific car in mind, we will go around to all the different dealerships in the area and find exactly what you are looking for. We can then negotiate on your behalf to get the lowest possible prices. Since we have a lot of buying power in the area, we can get

car leasing deals that simply aren't available to the average consumer. No matter what type of vehicle you are looking for, we will get it for you.
